SKILLS

- **Languages:** Python, C, JavaScript, C++, Java, Bash
- **Frameworks:** HTML, CSS, Metasploit
- **Tools/Platforms:** MySQL, Windows Server 2025, Linux, Git, GitHub, VS Code
- **Soft Skills:** Problem-Solving, Adaptability, Leadership, Critical Thinking

INTERNSHIP

VOIS AND VODAFONE IDEA FOUNDATION CSR PROGRAM | AICTE | [Link](#)

Dec'25 - Jan'26

Cybersecurity Intern

- Gained structured exposure to **cybersecurity fundamentals**, including **cyber threats**, **vulnerabilities**, **networking concepts**, and secure system practices.
 - Conducted **hands-on security labs** focused on **network analysis**, **vulnerability assessment**, and **traffic monitoring** within controlled environments.
 - Applied **ethical hacking techniques**, including **MITM analysis**, **cryptography**, **steganography**, and **browser attack prevention** through guided projects and demonstrations.
- Tech Stack:** Kali Linux, VirtualBox, Cisco Packet Tracer, Nmap, Wireshark, Social Engineering Toolkit (SET)

ShadowFox | [Link](#)

Oct'24 - Oct'24

Cybersecurity Intern

- Executed a comprehensive **penetration testing workflow**, encompassing **reconnaissance**, **vulnerability enumeration**, **exploitation**, and **privilege escalation** within controlled target environment.
 - Utilized **industry-standard tools** for **vulnerability validation**, **exploit deployment**, and **payload execution** to obtain **system access**.
 - Developed a **structured security assessment report** detailing identified **vulnerabilities**, **exploitation methodology**, **risk analysis**, and recommended **mitigation strategies**.
- Tech Stack** – NMAP, Gobuster, Hydra, Metasploit Framework

PROJECTS

AI-Based Network Intrusion Detection System | [GitHub](#)

Jan'26 - Jan'26

- Designed and implemented an **AI-driven Network Intrusion Detection System (NIDS)** to **monitor network traffic** and classify malicious activity using machine learning techniques.
 - Developed a **Random Forest-based detection model** with data preprocessing, feature handling, and classification, supporting both simulated traffic and real-world datasets (**CIC-IDS2017**).
 - Built an interactive **real-time monitoring dashboard** using Streamlit to train models, **simulate Network traffic**, and visualize intrusion detection results for academic demonstration.
- Tech Stack:** Python, Pandas, NumPy, Scikit-learn (Random Forest), Streamlit, Windows/Linux Environment, CIC-IDS2017 Dataset

Keystroke Logging | [GitHub](#)

Dec'25 - Dec'25

- Developed a **keystroke logging module** in a controlled lab environment to study input-capture attack mechanisms from a **defensive cybersecurity perspective**.
 - Implemented **structured data handling** by storing captured keystrokes in **JSON and plain text files** to support analysis and auditability.
 - Tested and analyzed the implementation within a **Windows-based environment** to evaluate **system behavior**, **security risks**, and **mitigation strategies**.
- Tech Stack:** Python, Windows OS, Structured Logging, File Handling

TRAINING

Cybersecurity Essentials | [Lovely Professional University](#)

Jun'25 - Jul'25

- Acquired a foundational understanding of core **networking principles**, including protocols, addressing schemes, and **network security fundamentals**.
- Gained hands-on exposure to baseline cybersecurity and **ethical hacking tools** used for **reconnaissance**, **scanning**, and **preliminary vulnerabilities**.
- Obtained essential understanding of **cyber laws**, regulatory obligations, and **fundamental security best practices** relevant to responsible cybersecurity operations.

CERTIFICATES

- NASSCOM Certified: Cybersecurity Essentials | [NASSCOM India](#)
- Cybersecurity Attack and Defense Fundamental Specialization | [Coursera](#)

Jan'26

Sep'25

• Cybersecurity Essential Lovely Professional University	Jul '25
• Computer Communication Specialization Coursera	Nov'24
• Kali Linux for Ethical Hacker Udemy	Oct'24
• Ethical Hacking Rising Tech Pro	Mar'24

ACHIEVEMENTS

• Secured Top 4% globally on TryHackMe Achieved the ranking among 6 million+ users	Feb'26
• Attained an impressive overall ranking of 91st position Out of 150+ participants in Hack Quest – 24 Hours Challenge	Apr'24

EDUCATION

• Lovely Professional University <i>Bachelor of Technology - Computer Science and Engineering</i>	Phagwara, Punjab Aug'23 – Present
• Narayana e-Techno School, South City - II <i>Intermediate; Percentage: 65%</i>	Gurgaon, Haryana May'20 - June'22
• Christ Church High School <i>Matriculation; Percentage: 76%</i>	Patna, Bihar Feb'19 - Jun'20
